

# COMMUNITY JUNGLE

***Connect Together  
grow together***

**A innovative Online community  
Platform**

# PROBLEM

An Online Community platform help people in grow and develop but when i search online community platform i don't find any platform where i will get all people of all profession , may be teacher , may be developer or may be painter means i have to access different different site for different community .

secondly i don't get any community platform where provide not only community platform but also provide marketplace and workplace.

# SOLUTION

Community Jungle will build a common Platform for all people of all profession so don't need to access the different site or download the different apps for different profession people and also it will provide workplace and marketplace

# SERVICES

Community Jungle will build a common Platform for all people of all profession so don't need to access the different site or download the different apps for different profession people

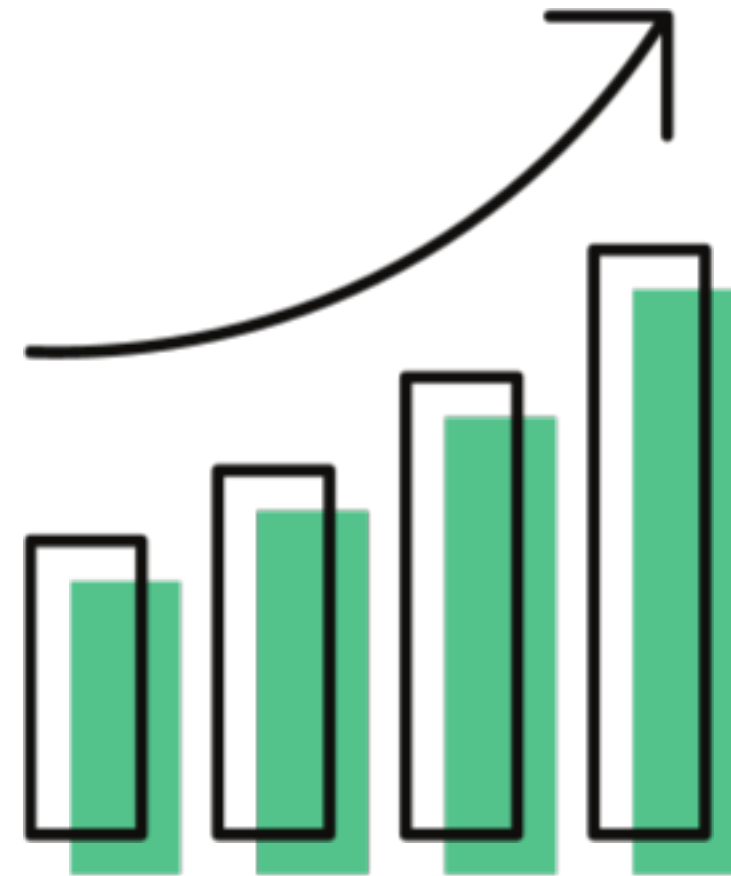

Community Jungle will not only provide a community platform but also a workplace and marketplace, it will be an added advantage for those people who are engaged in the community platform

Community Jungle will provide learning option from expert for those people who are engaged in the community platform

# SIZE THE MARKET

Online community platform market was valued at around USD 23 Billion and is expected to reach approx USD 7 trillion in 2027

About \$23 B  
Market Size

# **BUSINESS MODEL**

Our business model focuses on advertising, selling premium services and commission.

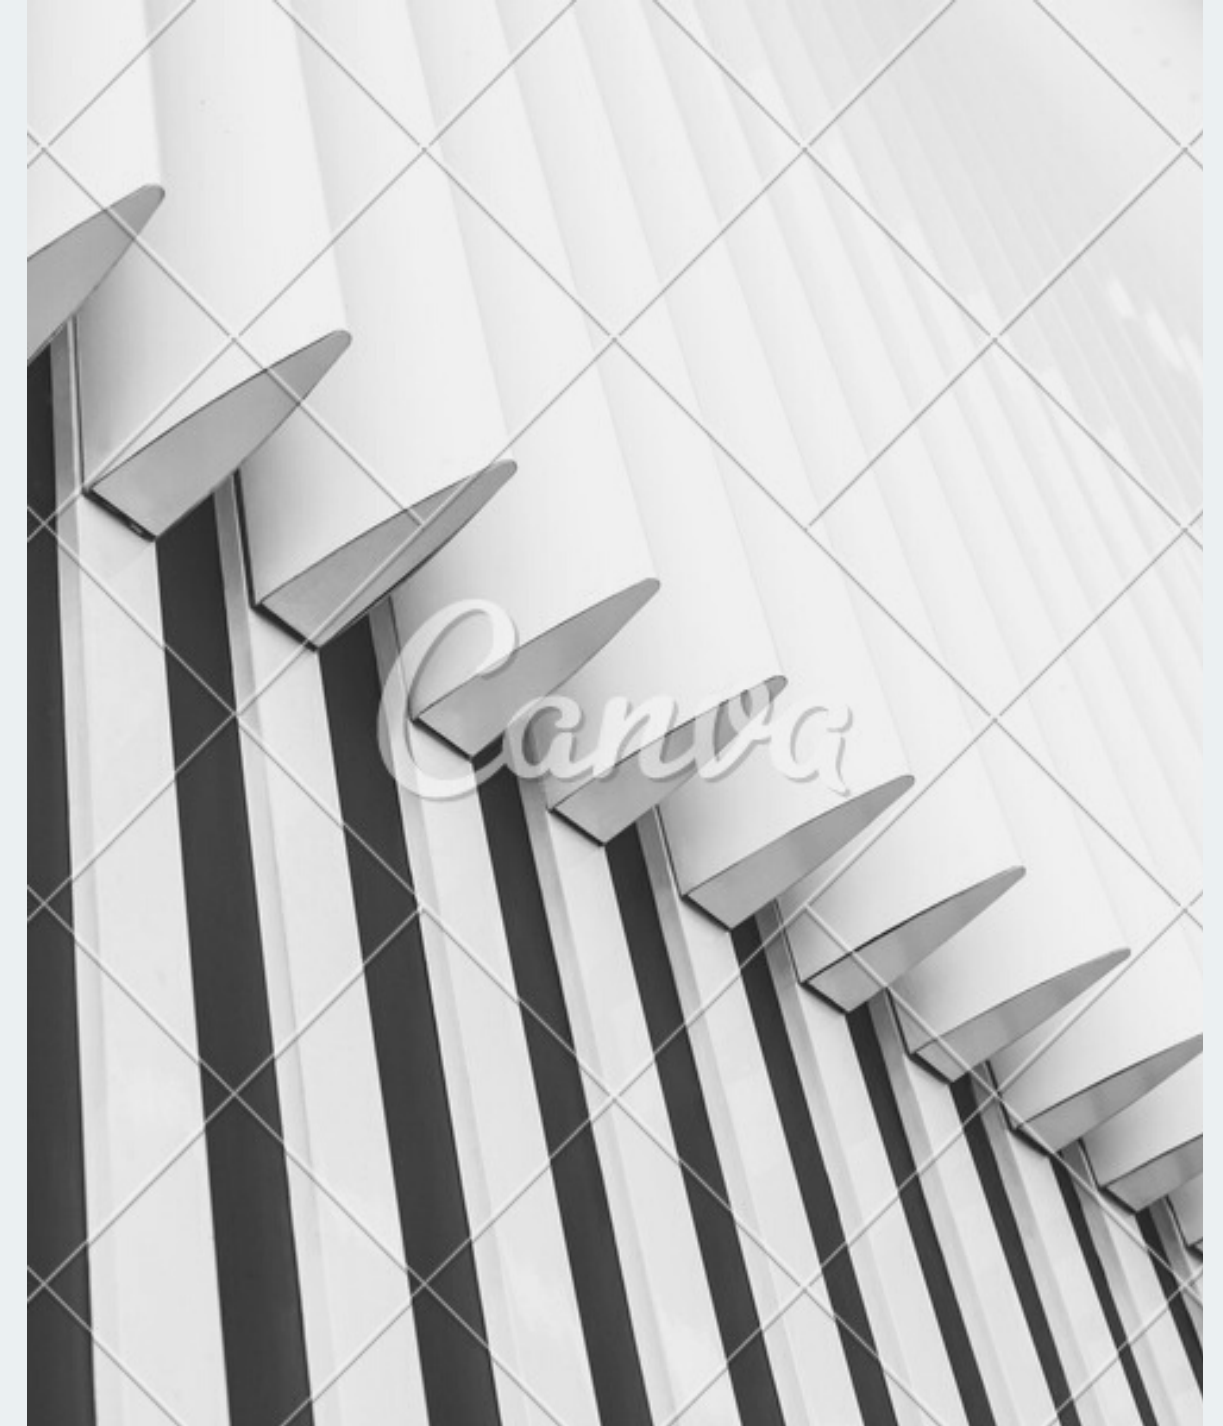

In Premium Service, we will provide some learning material for those who are want to learn some new thing.

We will provide a open marketplace for people of all profession where people can promote or sell their product and we will take a commission from his profit .

We will also provide a workplace for people of all profession where people can get work from customer and we will take a commission from his ear.

# PRODUCT USP

when we compare with other available platform on the internet for different profession we have to access different site or download different app but community jungle will provide all people from all profession in a single platform

# PRODUCT USP

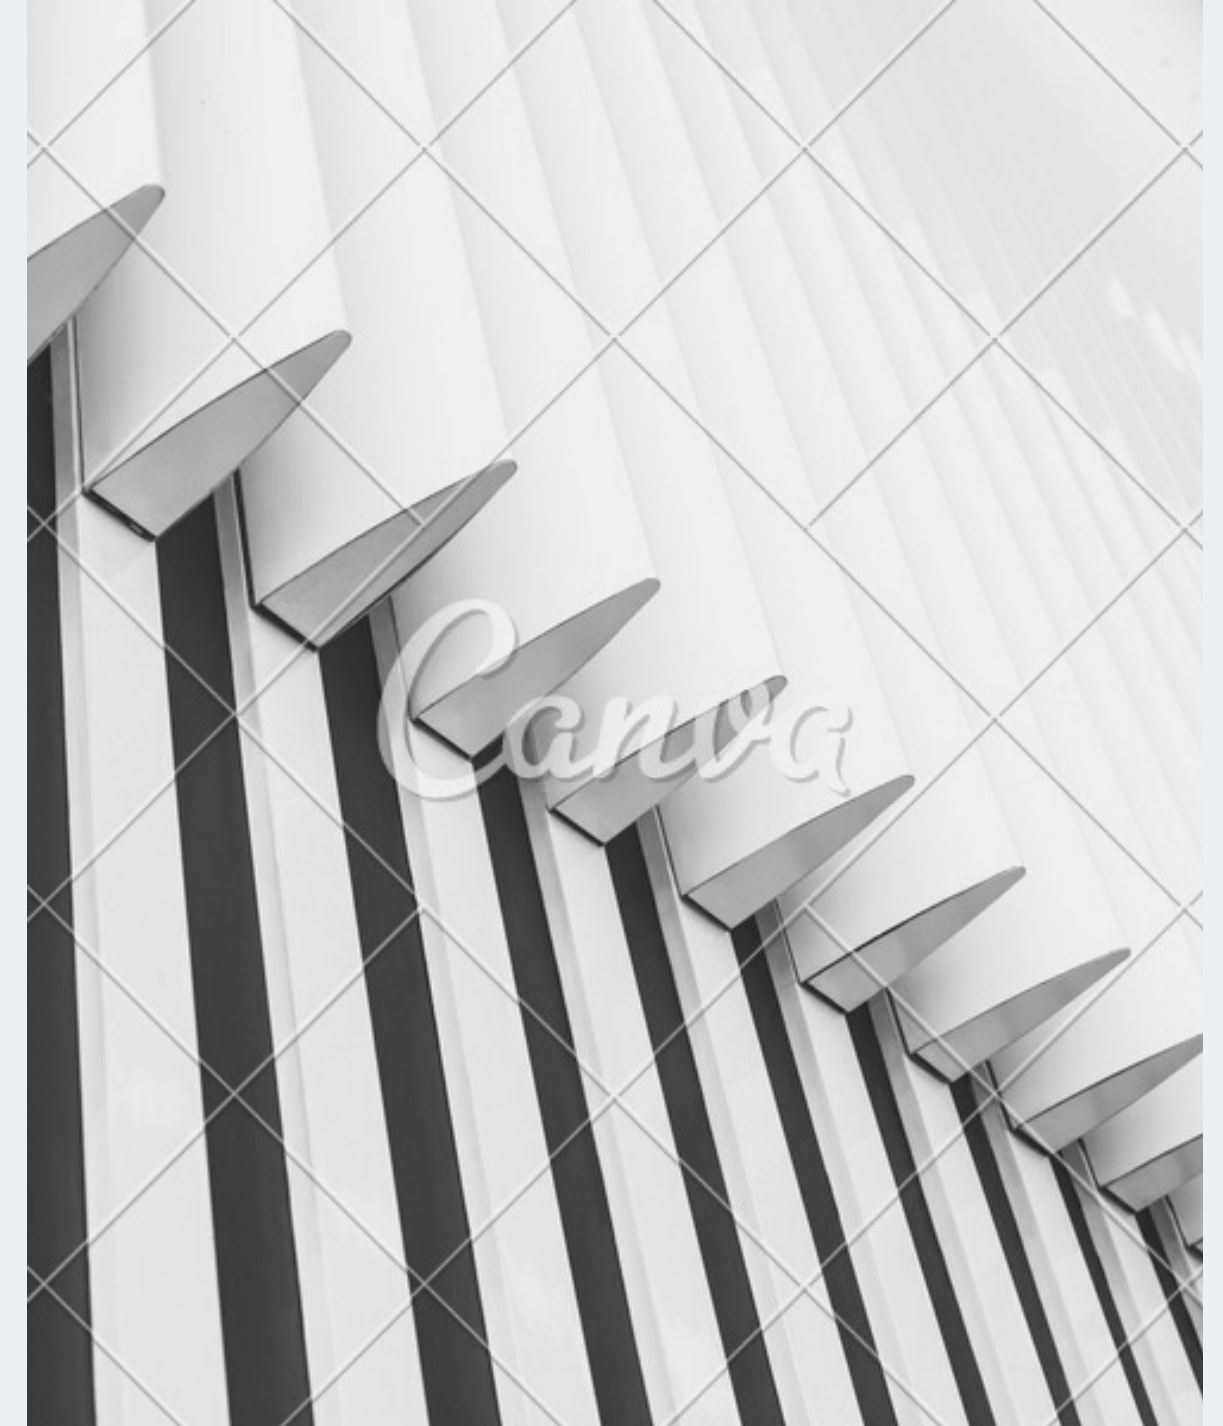

Our platform will provide not only community platform but also provide workplace and marketplace

# PRODUCT USP

Our platform provide learning material for those people who are want to learn new thing

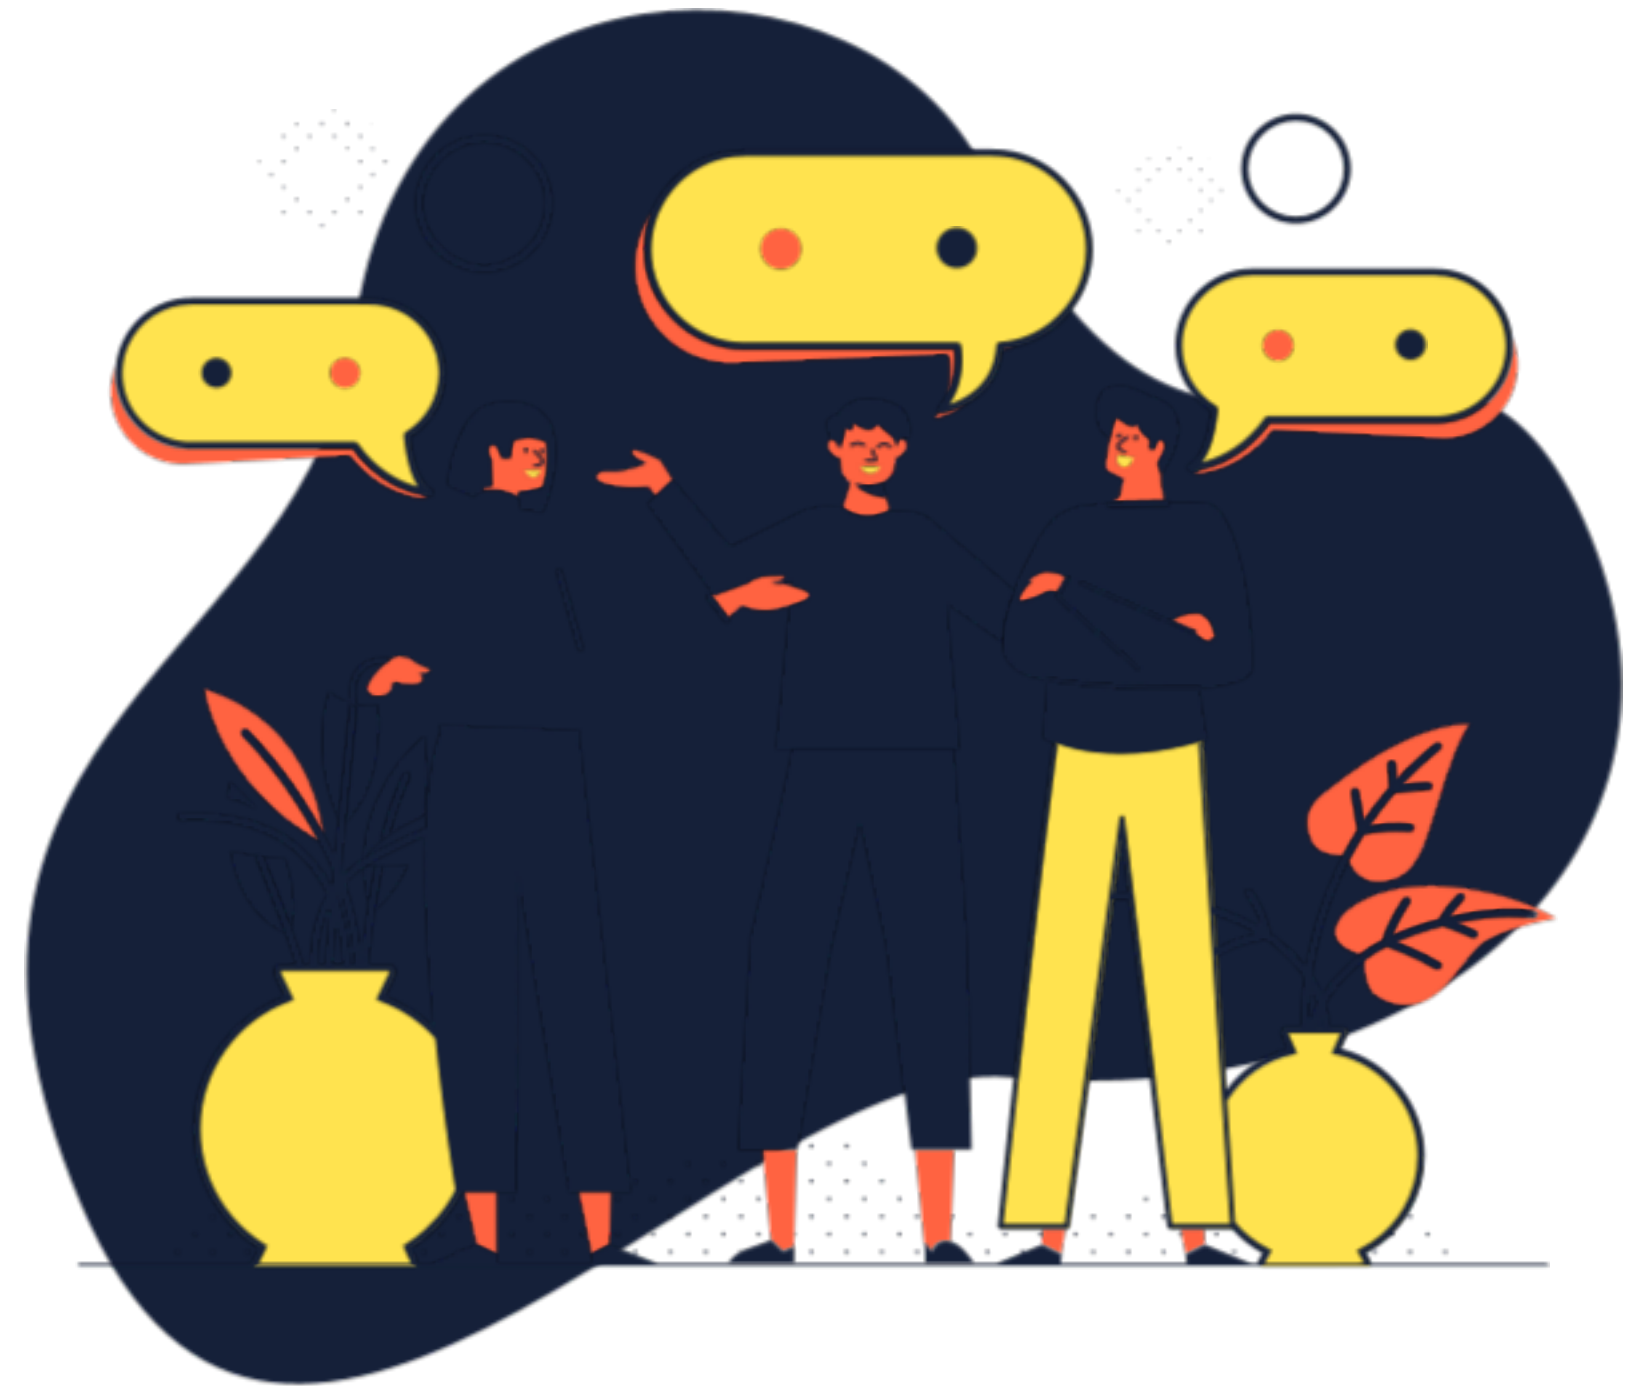

# TARGET MARKET

## *Target Market 1*

Our product will primarily target the professional people who want to expose their work

## *Target Market 2*

Our product will target the customer who want to hire people for their project or want people like make up man , fashion designern etc.

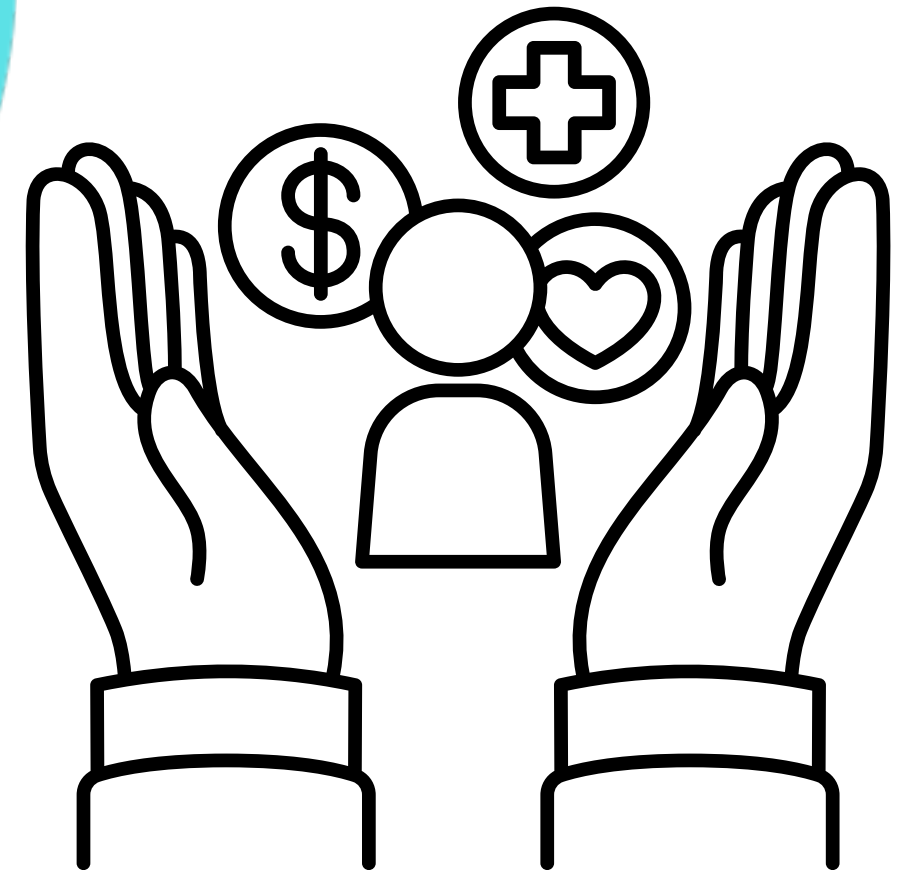

# FINANCIAL SUPPORT

Our Goal is to build a quality product that will help connect people of all profession under one common roof .

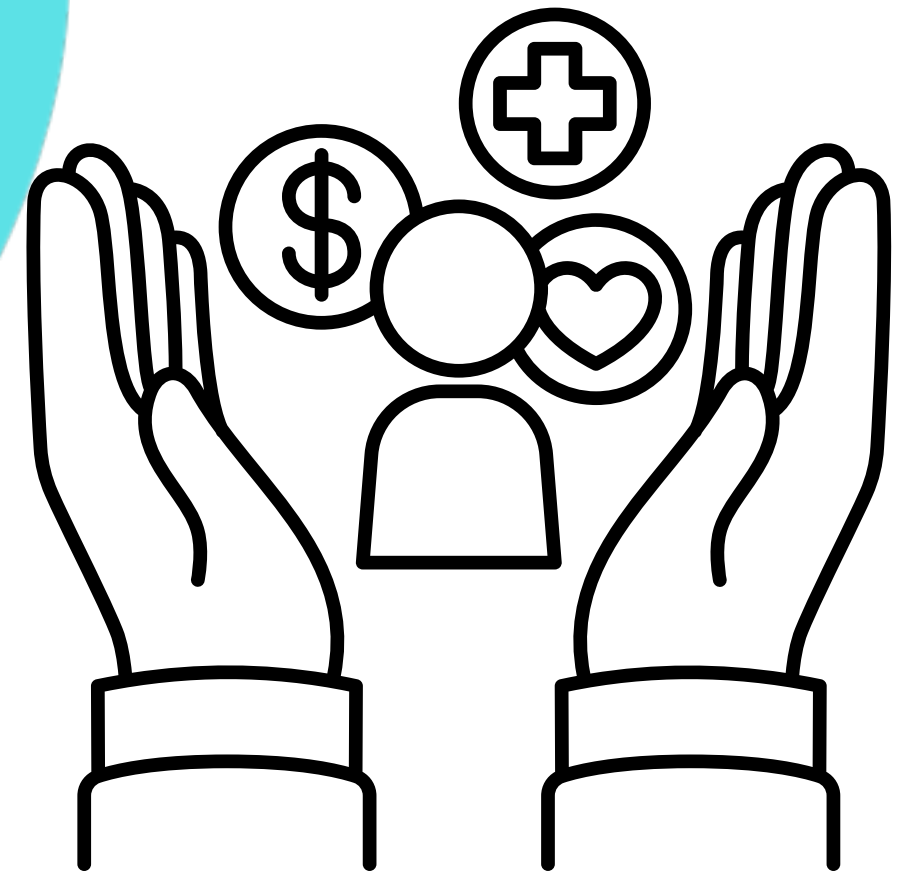

To achive our target we need a huge financial support from the investor

The most of the fund will be expense in development

# FINANCIAL SUPPORT

We will expense our funding in  
development , marketing and hire  
people
