WORLD DIGITAL TRADING APP

# OBJECTIVE

---

WE ARE HERE TO INTRODUCE  
OUR NEW STARTUP

# INTRODUCTION

---

LET'S GIVE YOU A BRIEF OF WHAT WE ARE DOING

# WHAT IS GLOBALI

- Dear team allow me to introduce, I am starting from where I got this idea, I am basically a middle class boy
- Who work as 9-6, But since lockdown I started investing in Indian exchangers like BSE & NSE. I use to prefer intraday with quite profit and some loss as well
- Later on, I even started investing in forex market where profit was exponential, But along the way I thought every country should have exchanger like India has. In fact, 88% of common world is unaware that there is 100+ exchangers across the globe. And that's where to address this issue I came up with this new idea.

# PROBLEM STATEMENT

---

Like Indian exchanger, every nation has its own exchanger which is the economical backbone of the nation. But, there is no connect between various exchangers and people across globe. There is no common platform where people can interact with such different exchangers and this we find as a challenge.

## A 3D bar chart with five bars of increasing height, topped with a large blue arrow pointing upwards. The background is a dark blue grid with binary code (0s and 1s) and various financial data points, including numbers like 1.25, 4.25, 10.02, and 22.36, suggesting a focus on technology and finance.

- We are working for people across globe to connect every exchange on finger tip and make trading world easier and simple.
- Until now we showcased benefit for investors, but this can also take nations on great heights
- We are also incorporating insurance and copy trading in app

# WE ALSO HAVE..

---

## INSURANCE BENEFIT

- According to NCRB, More than 11,000 businesspersons died by suicide in 2020 due to market crisis.
- A 29% jump from 2019
- We shall try to cover all the deaths of investors that occurred under certain market circumstances

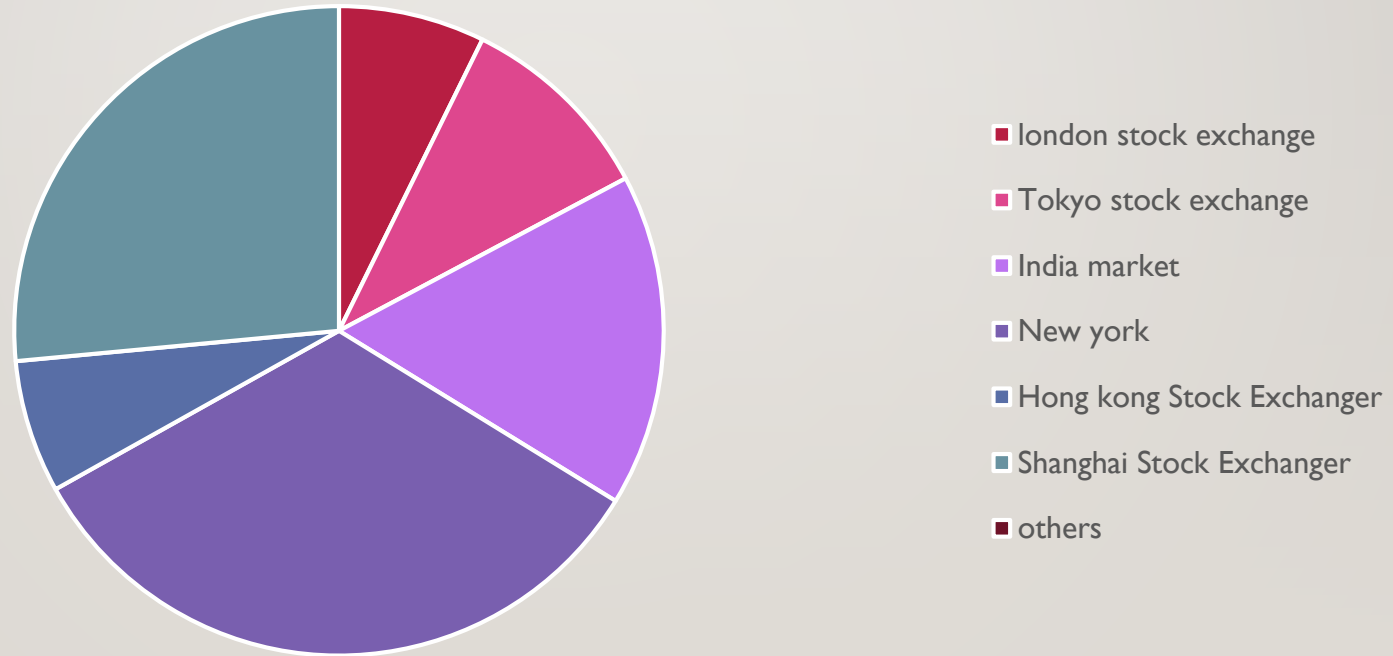

## COPY TRADING

- We are providing this option of “Copy Trading” which helps beginners to invest in market through expert to grow and get used to the market.
